Dear Aisha,

RE: APPLICATION FOR FULL STACK SOFTWARE DEVELOPMENT POSITION

Juliet is an entry-level software developer. Being an admirer of the work Mswati does to promote desire and curiosity to know more within the African adult population, I am excited to submit my application for the full stack role at your company.

I am impressed by how Mswali encourages learning and provides information to its users easily. I will be greatly honored to be part of the Mswali team and contribute to providing quality software.

I am excited to bring my coursework skills in Python, Kotlin, Javascript, and Java, alive by doing hands-on work in projects that solve human needs. Currently am working on a school management system that enables a school organization to keep students, trainers, staff, and assets data into a database, enabling the school to keep track and monitor the program effectively.

Please find attached my resume. Feel free to contact me should you require anything further clarification.

Thank you for your time and consideration. I look forward to hearing from you.

Sincerely,  
Juliet Gisemba
