Dear Sir/Madam

RE: APPLICATION FOR SOFTWARE DEVELOPER INTERNSHIP

Juliet is an entry-level software developer. I am writing to express my interest in a software development internship at Apollo Agriculture.

I truly admire your company's mission to always deliver modern farming everywhere which has helped many small-scale farmers in emerging markets increase their profits and I would feel much privileged to be a member of the team at your company.`

Currently am working on a smart farming project which aims at finding solutions on how farmers can improve their yields despite changing climatic seasons. I have been able to carry out desk research reports and a pilot study where I had an opportunity to identify the methods of farming they use and the challenges they face during farming.

Please find attached my resume. Feel free to contact me should you require anything further. Thank you for your time and consideration. I look forward to hearing from you.

Sincerely,
Juliet Gisemba
